

NORTHWESTERN UNIVERSITY

Investigator – Fetal, Placental Biology, Reproductive Tract Research

The Department of Obstetrics and Gynecology at Northwestern University Feinberg School of Medicine seeks a full-time tenure track Investigator at the rank of Assistant or Associate Professor. This position will have an emphasis on fetal, placental and reproductive tract research. The successful candidate will be expected to establish and maintain an energetic, well-funded research program; engage in interdisciplinary and collaborative research and teach undergraduate and graduate level courses.

Successful candidate will have completed a doctorate in biology from a credentialed institution and will have academic qualifications and experience. Substantial experience in fetal, placental and reproductive tract research is preferred. Candidates interested in questions that can be translated to human pregnancy concerns including recurrent pregnancy loss, intrauterine growth retardation, pre-eclampsia and the feto-placental-immune system are encouraged. Broad approaches including physiological, molecular, functional genomics, epigenetic are encouraged.

The start date is negotiable and the position will remain open until filled.

Please read ALL instructions and make preparations before proceeding to the application page:

- Applications will only be accepted via online submission (see link below).
- Please prepare all documents in advance as Adobe PDF files, and please be sure all information is entered correctly and accurately (especially names and email addresses), as there will be no opportunity for online revision after your application has been submitted.
- All required fields in the application form are marked with an asterisk and must be filled before clicking the "Submit" button.
- Be aware that incomplete applications cannot be saved.

Associate Professor/Professor (Search ID): 445
